#10. Why you want to study in UK?

Ans. (Cover minimum 6 – 8 points which must include 2 points each about why UK, Why not India, Why not other English Speaking country)

- UK is a hub of education and qualification obtained in this country is internationally recognized.
- UK always uses updated technology with the latest research to educate students with current market requirements.
- 54% of the research is conducted by UK universities and colleges as per Research Assessment Exercise.
- International graduates satisfaction in UK is very high at 91% overall as per UK INTERNATIONAL UNIT.
- UK is well known for its medical facilities.
- UK is also one of the best place for medical and research facilities in the world. I will be able to observe it closely and learn from it.
- UK Education System is very well known all over the world. UK education system is based on advanced practical knowledge.
- In UK I have an opportunity to be taught by experts and world's leading academicians it helps me to develop skills set and conviction.
- Moreover, it has less crime ratio which is important for me as a girl.

#11. Why UK not India or other countries?

Ans.

- The same course is available in my home country as well but the course duration in India is for 2 years where as in UK it is only for 1 year which means I will be able to restart my professional career as soon as possible.
- Moreover, education system of UK focuses on providing hands- on learning to self study, project work, case studies, practical work, etc which is not available in my home country due to its rigid and traditional education system.
- Also, while studying in UK, I will be able to observe the advanced Nursing field and healthcare systems which will help me to develop my skills and knowledge.
- Hence, I have opted for UK above India.

#12. How this course or program will benefit to you in your future?

Ans.

- This course will help me to enhance my specialist knowledge and explore topics of current interest in the field including research philosophy and methods, theoretical perspectives on practice, clinical governance and patient safety and communication in intercultural contexts.
- Also, this program will give me ability to apply their knowledge to the effective management of long-term conditions in the context of global, national and local perspectives
- This course will prepare me to work as a Head Nurse, Senior Nurse, etc in reputed multi-specialist hospital in my home country like Apollo, Sterling, Bankers, etc.
